GIVE ASSISTANCE

In an emergency, you will want to help others... it's human nature.

Make your efforts have maximum benefit.

Let us know you are there and what services you can contribute.

Do this now rather than during the confusion of a crisis.

ASK FOR HELP

Are you at special risk in a community emergency?

Are you homebound?

Do you have special medical needs?

Do you have a family member or neighbor who is at risk?

Contact us. We can help, but only if we are aware of your needs.

We will treat your information with discretion.
