## The Lot 11 & Area Watershed Group

March 2014

### The MacDonald's River Trail

Working together: (left-right) Minister Webster, Karen Rank, Minister Sherry, Minister Henderson, Grant Lynch

Our interpretive trail at MacDonald's River is very well received by our community. This project shares with our community members and visitors the value of a remarkably pristine old-growth forest, a healthy gravel-bottom stream, and a productive, anoxia-free estuary.

Creating this trail was a major project for our group. It has already proven itself as a recreational and educational resource. Our work in this special place has Island-wide recognition and support.

Come enjoy it with us!

### Our Work

A well-deserved moment of rest for the 2013 watershed management crew.

### 2013 Highlights

- Development of the MacDonald's Trail
- In-stream sediment trap excavation at Foxley River
- Planted 1000 trees/shrubs
- Ongoing habitat restoration in seven area rivers
- Managed beavers and alders
- Community-cooperative youth recreation program: Watershed Daycamp
- Active representation, leadership, and participation in Island-wide watershed management organizations including the PEI Watershed Alliance and the Wildlife Conservation Fund Board
- Planting Day youth community-improvement event at Warburton Park.

We thank all of our staff, volunteers, WMF, WCF, EDA, Greening Spaces, Service Canada, our neighbouring groups, the PEI Watershed Alliance, the Lot 11 & Area CC, our MLAs, the provincial

departments of: Environment/Labour/Justice, Agriculture/Forestry, Tourism/Culture, and Transportation/Infrastructure

... for making our year a success and our future possible.
