Your Community Council

Citizens of our community know their own needs much better than anyone else does. It is the role of your municipal council to identify those needs, to decide which of the needs are most important, how best to provide for them, and how to raise the necessary money to pay for them. The importance of municipal government is that these choices can be made locally by elected representatives who can easily be contacted by their constituents.

What we are doing

Your Community Council is involved in a variety of initiatives, including:

- Emergency Measures Planning
